UNIVERSITY

THE PROGRESS REPORT OF THE CHAIRMAN OF THE BOARD - THE RECTOR OF IITU JSC
KHIKMETOV ASKAR KUSUPBEKOVICH

**OF INTERNATIONAL INFORMATION
TECHNOLOGY UNIVERSITY
JOINT STOCK COMPANY
FOR 2022-2023 ACADEMIC YEAR**

Messages of the Head of State Kassym-Jomart Tokayev to the people of Kazakhstan

**“A Fair State. One Nation.
Prosperous Society”
(01.09.2022)**

**“The Economic course
of a Just Kazakhstan”
(01.09.2023)**

“...The next important issue is the state of the education system, which plays a crucial role in increasing the nation’s potential.”

Endowment funds at universities should become a key link in the development of the educational ecosystem. In the world’s leading universities, such endowment funds are the basis for sustainable financing of science and innovation. The basic factor in improving the welfare of the people is the growth of wages in line with market conditions....”

“...The educational system needs transformation to meet the labor market’s demands. Several sectors of the national economy are experiencing labor shortages, especially in technical and working professions. We need to focus on relevant education, and educational institutions should build long-term partnerships with potential employers ...”

IITU Mission

developing competencies in the field of digital economy and society

Vision

Leading educational, scientific and innovation center of the Central Asian region in the field of ICT technologies.

Strategic goal

training highly qualified specialists for the digital economy who are competitive in the international labor market.

IITU
development
strategy for
2022-2025

Values

Academic integrity, leadership and excellence, innovation focus, results orientation, sustainable development and financial performance, cooperation.

Strategic areas

No.	Name of the strategic area	Indicators	Performance	Effectiveness
1	Integration of the university into the global scientific and educational space	9	9	90%
2	Academic excellence and management of the university's educational and social activities	16	14	
3	Development of scientific and innovative activities in ICT and related sectors of the digital economy	14	13	
4	Digital transformation, improvement of the university's management model and personnel policy	8	7	
5	Financial and economic model of university sustainable development	10	8	

Reporter
World University Rankings
2024

Kazakhstan

International IT University

On September 27, 2023, IITU was included in the 2024 Times Higher Education ranking of world universities with **Reporter** status.

Double degree programs:

- **Inha University, South Korea** for EP - IT Project Management (Master's program)
- **Adam Mickiewicz University, Poland** for EP - Journalism (Bachelor's and Master's programs)
- **Hof University, Germany** for EP - Computing and Software and Information Security Systems
- **UNITEN University, Malaysia** for Financial Engineering

Learner Performance by TOP Skills

Number of unique courses completed

Year	Number of unique courses completed	Number of mandatory unique courses	Number of non-mandatory courses completed
2020	337	67	270
2021	335	124	211
2022	599	65	534
Overall	1271	256	1015

2020. The first introduction of Coursera for Campus courses into the educational plan in the amount of **2200** licenses for 2-3 year students;
2021. Increasing the number of licenses to **2,500** for undergraduates and faculty members in order to improve their qualifications;
2022. Purchase of additional 500 licenses, totaling the total number of subscriptions to the platform – **3,000**.
- For 2023, the total number of licenses for students, master's/doctoral students, faculty members and administrative and managerial personnel – **5,000**.

Problems

- Financial difficulties that arise when nominating students under the academic mobility program.
- Difficulties in obtaining a visa when preparing documents for studying during the academic period.
- Lack of its own dormitory and University facilities.
- Insufficient interest of faculty members in participating in international projects.

Objectives

- Search for potential partners and **implementation** of educational programs within the framework of double-degree education as the most important means of increasing the competitiveness of a university in the global market of educational services;
- Ensuring participation in the QS Stars, THE Impact programs and other significant world and national ratings.

Foreign students

The need to transform the model of additional education at IITU

- **44% of key employee skills** are expected to change in the next 5 years*
- **6 out of 10** employees will need training by **2027**, but **only half** of them have access and opportunity to receive appropriate training
- Companies recognize the need for upskilling and reskilling, and only 82% of them plan to invest in training and on-the-job training
- **AI and big data** are ranked **7th** in skills of increasing importance today, and with a forecast of **60% growth in demand** until 2027.
- Leadership skills, which rank **9th in the Top Skills 2023** and **11th in the Skills of Increasing Importance**, will be the focus of **4 out of 10 corporate strategies** for developing employee skills.

Student life

- **45** mass cultural and patriotic events
- Became prize-winners in three sports **at the 12th Universiade (Aktau)**:
chess (**2nd place**), basketball (**3rd place**) and togyzkumalak (**3rd place**)
- Enactus Kazakhstan National Expo 2023 – **2nd place**
- In eSports - **1st place** in “CS:GO”, **2nd place** in “DOTA 2”, **4th place** in “FIFA23”
- **2nd place** at the national competition for student entrepreneurship, startups and innovations Enactus Kazakhstan National Expo 2023
- **1st place** in the JBR dance competition

Problems

- Lack of young scientific and teaching staff;
- Insufficient number of classrooms equipped with modern equipment;
- Low public activity of students;
- Insufficient number of teaching and methodological materials for inclusive education.

Objectives

- Successful completion of the International Institutional Reaccreditation procedure with confirmation of the quality of activities of IITU JSC;
- Analysis of the educational outcomes of university educational programs and the policy of assessing students' knowledge;

- Development and implementation of microqualification programs and ensuring collaboration with large companies;
- Development of online education, development of high-quality proprietary MOOCs, provision of additional educational services and attraction of external potential students;
- Organizing meetings of students with eminent graduates and top managers of large employers in collaboration with the Alumni Association;
- Introduction of Integral GPA in order to increase students' activity in social, patriotic, cultural and sports events of the university and the city;
- Intensifying work to support socially vulnerable students and people with disabilities.

Research activities

On June 14, 2023, a certificate of repeated reaccreditation as a subject of scientific and/or scientific and technical activities was received (*accreditation certificate series MK No. 00226*).

Funded scientific projects

Projects	Number	Amount of financing
Grant Financing of the Ministry of Science and Higher Education of the Republic of Kazakhstan (2020-2022)	3	KZT 148.9 mln.
Grant Financing of the Ministry of Science and Higher Education of the Republic of Kazakhstan (2022-2024)	2	KZT 155.8 mln.
Grant Financing of Young Scientists of the Ministry of Science and Higher Education of the Republic of Kazakhstan (2022-2024)	1	KZT 74.9 mln.
Grant Financing of Young Scientists of the Ministry of Science and Higher Education of the Republic of Kazakhstan (2023-2025)	1	KZT 74.9 mln.
Commercialization of the results of scientific and (or) scientific and technical activities of Grant Financing of Science Foundation JSC	1	KZT 240.3 mln.
TOTAL	8	KZT 694.8 mln.

Problems

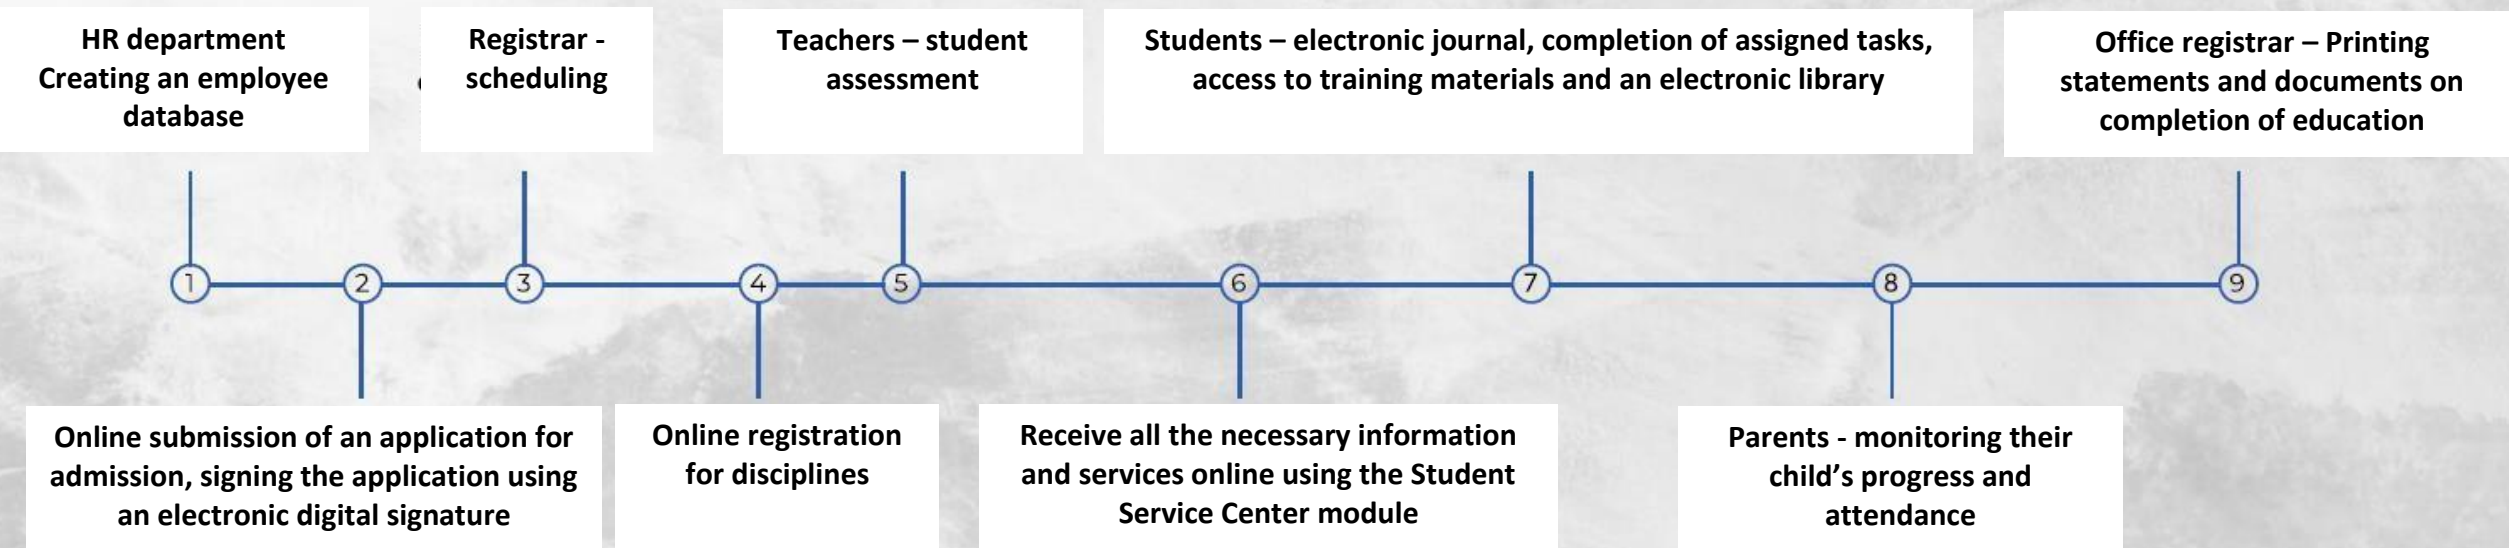

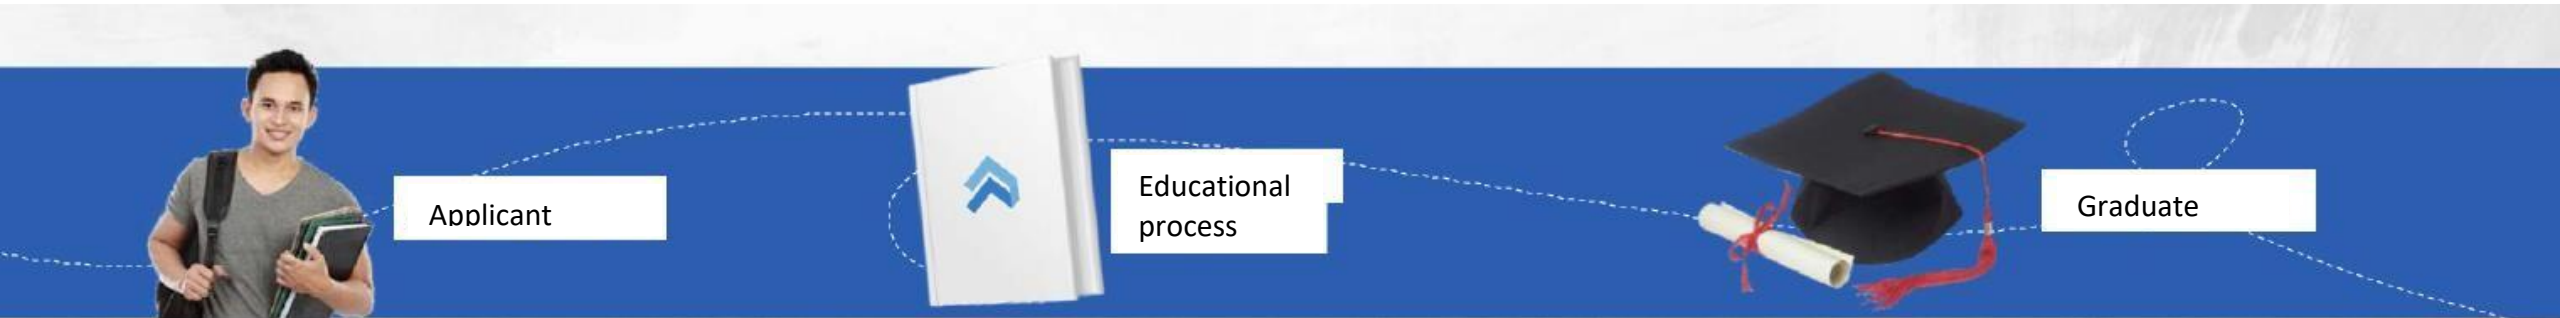

- Lack of qualified scientific personnel to manage the projects of the Grant Financing of the Ministry of Science and Higher Education of the Republic of Kazakhstan, Targeted Financing Program, commercialization of the results of scientific and (or) scientific and technical activities of Grant Financing of Science Foundation JSC, as well as their implementation;
- Problems in the formation of temporary scientific teams;
- Low level of participation of master's and PhD doctoral students in scientific projects ;
- Lack of skills in preparing applications for participation in scientific project competitions.

Objectives

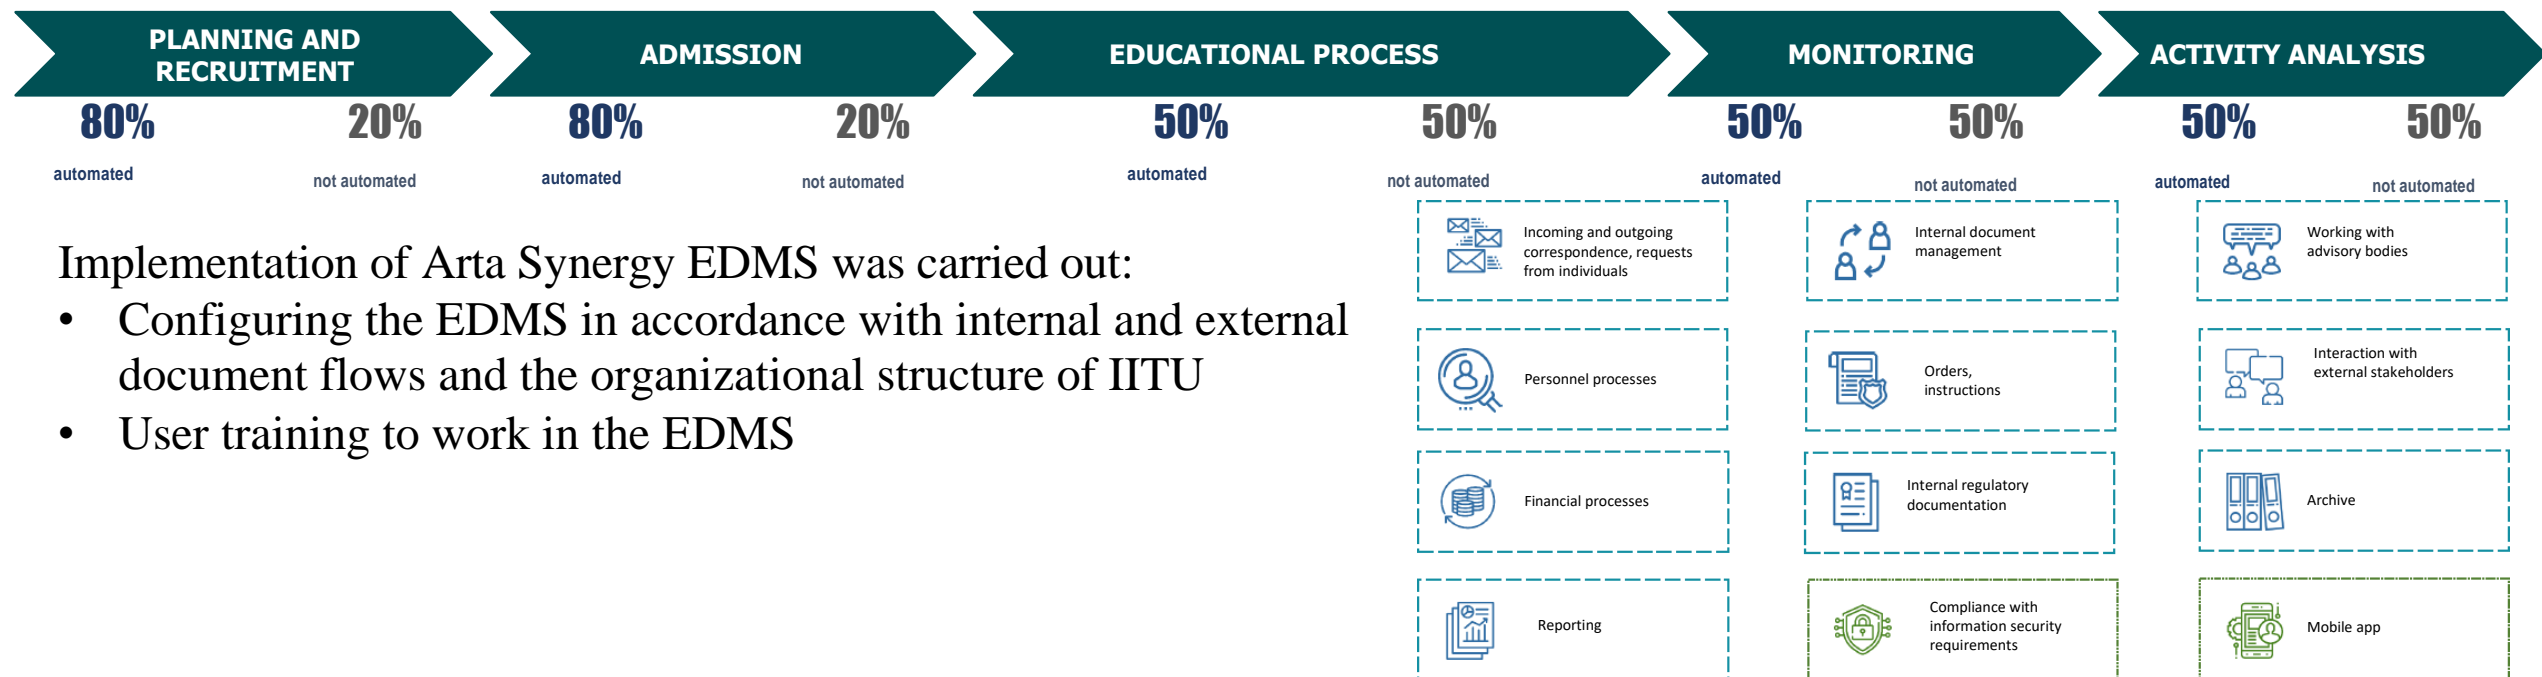

- Preparation of the material and technical base and attraction of scientific and pedagogical personnel to create a scientific school in the direction of “Artificial Intelligence”;
Strengthening ties with leading universities of the Republic of Kazakhstan and abroad for joint research work, training of scientific personnel and scientific collaboration;
- Development of scientific and professional competencies of faculty members for conducting high-quality scientific research and successful defense of PhD dissertations;
- Development and implementation of a motivation system for PhD Doctoral students;
- Development and implementation of mechanisms for regulating the composition of temporary scientific teams for the quality implementation of research projects;
Conducting training sessions and seminars(on an ongoing basis) on writing applications for participation in research competitions of the Ministry of Science and Higher Education of the Republic of Kazakhstan, Ministry of Digital Development, Innovation and Aerospace Industry, etc.

The University, within the framework of a signed memorandum with the Platonus company, was the FIRST to implement the new version of the Platon 6.0 AIS

IITU SYSTEMS (SERVICES AND TOOLS)	
NAME	PURPOSE
Platonus 6.0 IS	Organization of educational process and administration
Microsoft Office 365 A3, A5	Organization of internal communications and processes
Bitrix24 CRM	Customer interaction tool
Arta Synergy EDMS	Internal and external electronic document management system
Electronic queue system	Organization and management of queue flows (during the admissions committee)
Coursera online learning platform	Additional online learning for students
Open edX online learning platform	IITU online courses for additional education
Scientific Articles Platform (journal.iitu.edu.kz)	Database of scientific articles and developments
KPI platform (ratingstaff.iitu.edu.kz)	Platform for assessing the performance of faculty members
Irbis	University library management system
Internet resource (iitu.edu.kz)	Information resource
1C Accounting 8.3	Accounting and management (Accounting, Personnel and Documentation Management Department, analysis of economic activity)

INCUBATION PROGRAM

PROGRAM MODULES

- 1 GOAL SETTING AND FEATURES OF WORK IN THE INCUBATOR
- 2 GENERATION OF BUSINESS IDEAS
- 3 HADI CYCLES
- 4 TARGET AUDIENCE AND VALUE PROPOSAL
- 5 MARKET AND COMPETITOR ANALYSIS
- 6 MVP
- 7 ZEROCODING
- 8 SEARCH FOR FIRST CUSTOMERS
- 9 CUSTOMER DEVELOPMENT
- 10 FIRST SALES
- 11 RULES OF GOOD PITCHING FOR A STARTUP

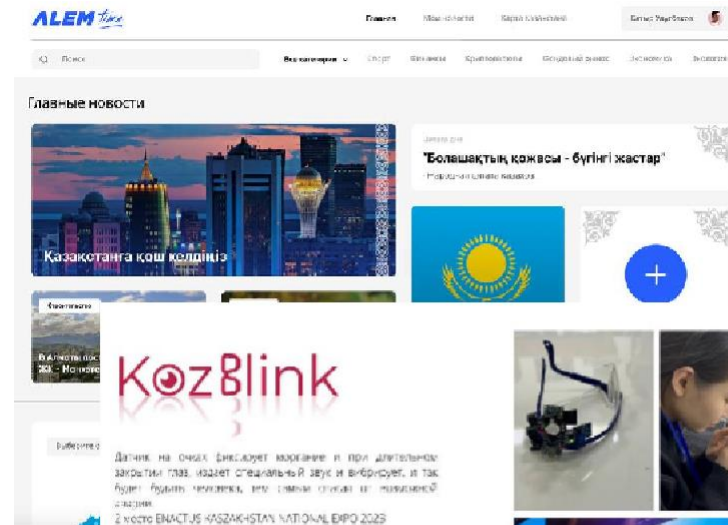

A distinctive feature of the IITU Innovation incubation program is its individual approach to each startup. The goal of the program is to help startups achieve success in their industries, and for this we provide all the necessary resources and support.

- 1 INDIVIDUAL PROJECT SUPPORT
Each startup is assigned a personal mentor with relevant experience and competencies, who will accompany the project throughout the entire incubation program.
- 2 ТЕХНИЧЕСКАЯ ЭКСПЕРТИЗА
The IITU Innovation Center provides technical expertise that will allow companies to evaluate the technical solutions they have chosen for their projects. Experts will check the compliance of the selected solutions with requirements and standards, and also evaluate their effectiveness.
- 3 WORKSHOPS AND SEMINARS
We regularly organize events inviting experts from various industries, where residents can gain valuable knowledge, learn about new trends and approaches in their field.
- 4 CONSULTATIONS ON INNOVATION ISSUES
IITU Innovation mentors will guide startups to develop an innovation strategy, analyze competitors, identify their advantages and disadvantages, and find opportunities to increase profits and improve business processes.
- 5 SERVICES FROM EXPERTS IN ACCOUNTING AND JURISPRUDENCE:
 - Consulting on accounting and taxation issues
 - Audit and verification of financial statements
 - Consulting on legal issues, including legal aspects of intellectual property and patenting

Results of the Business Incubator
10 incubation programs carried out:

Applications	1,324	Selected	342	Graduates	68
--------------	-------	----------	-----	-----------	----

- R&D LAB
- Sports programming
- INO Studio and NIC (development and training)
- Business incubator

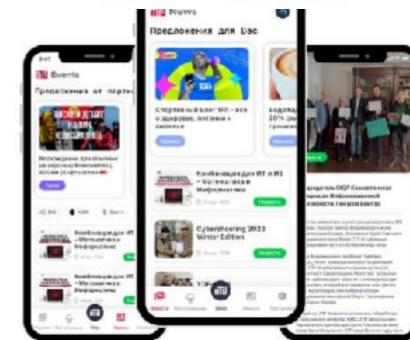

- Ценности продукта
- 1 Снижение нагрузки в торговле, на предприятиях и на транспорте
 - 2 Удобность использования
 - 3 Повышение скорости работы с информацией
 - 4 Доступная цена

STUDENT IITU

DEVELOPMENT OF A MOBILE APP TO MAKE THE STUDENT LIFE OF UNIVERSITY STUDENTS EASIER.

Innovation is the result of a team working together to combine their knowledge and experience to create something new and unique. The goal is to create an entrepreneurial ecosystem at the university, by providing practical support to ambitious enterprises and startups to achieve success.

Activities in 2022-2023

- Activities within the framework of the Digital Nomads projects of the Ministry of Digital Development, Innovation and Aerospace Industry of the Republic of Kazakhstan
- Crack IT - business-case solving championship
- Incubation program and competition for start-up projects at the INO (two cohorts)
- Business incubation for agro-industry
- IT Nation 2023 Subject Olympiad
- iOS intensive
- FreshBiz Business Game
- Astana Digital Bridge 2022
- Almaty Digital Forum 2023
- Almaty TechCup 2022
- IITU Open, KBTU Open, NU Open

IITU is the leader among universities in Kazakhstan and Central Asia in ICPC. Winners and prize-winners of IITU Open, KBTU Open, NU Open local Olympiads

The IITU team qualified for the World Olympiad Final 6 times in 2013, 2014, 2019, 2020 (held in October 2021 in Moscow), 2021 (held in November 2022 in Dhaka), 2022 (will be in November 2023).

In November 2022, the **World Olympiad Final in Sports Programming ICPC World Finals 2023** was held in Dhaka, Bangladesh. At the finals our country was represented by two of the strongest student teams. IITU 1 team of IITU, consisting of Sardarbekov Batyr, Baimukanov Abay and Kyzyrkanov Parasat, entered the top 20 teams, having solved 7 problems out of 12, took 16th place among more than 120 best teams of world top universities.

Mixed Reality Laboratory

Apple new laboratory

Problems:

- Insufficient digital resources for training and administrative work.
- Lack of involvement of employees and faculty members in the university digitalization process
- Lack of qualified teachers in certain specialties.

Objectives:

- Implementation of a modern IT infrastructure that ensures effective interaction between all structural divisions of the university.
- Development of an eco-system of startup projects: creating conditions for commercialization of the results of innovative activities, attracting investments.
- Improvement of digital educational resources, platforms and tools for the educational process.
- Creation of a platform for interaction with industry, scientific and educational institutions to exchange experiences and resources.

Instagram

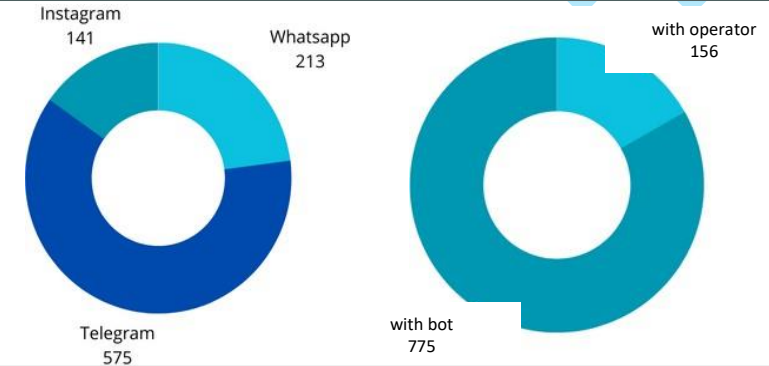

For 2022-2023:
Coverage increased by 15% over the year

Tik Tok

For 2022-2023:
Tik Tok coverage increased by 70%

Have developed and implemented whatsapp, telegram and instagram chat bots that can automatically answer more than 30 questions of present interest.

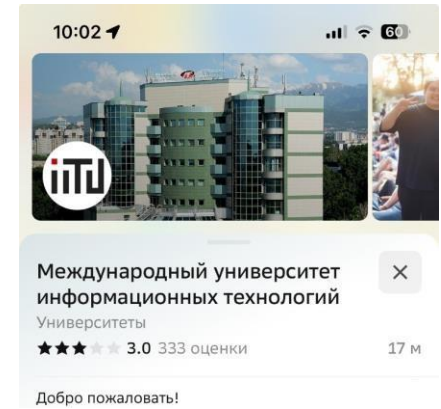

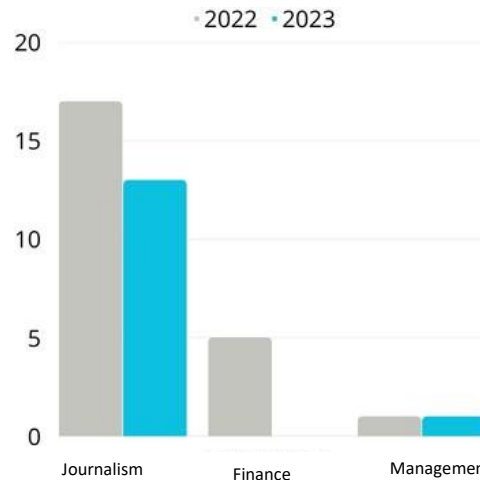

Plan for 2023-2024:
increase coverage by adding relevant answers to questions

A comparative analysis was carried out among those enrolled

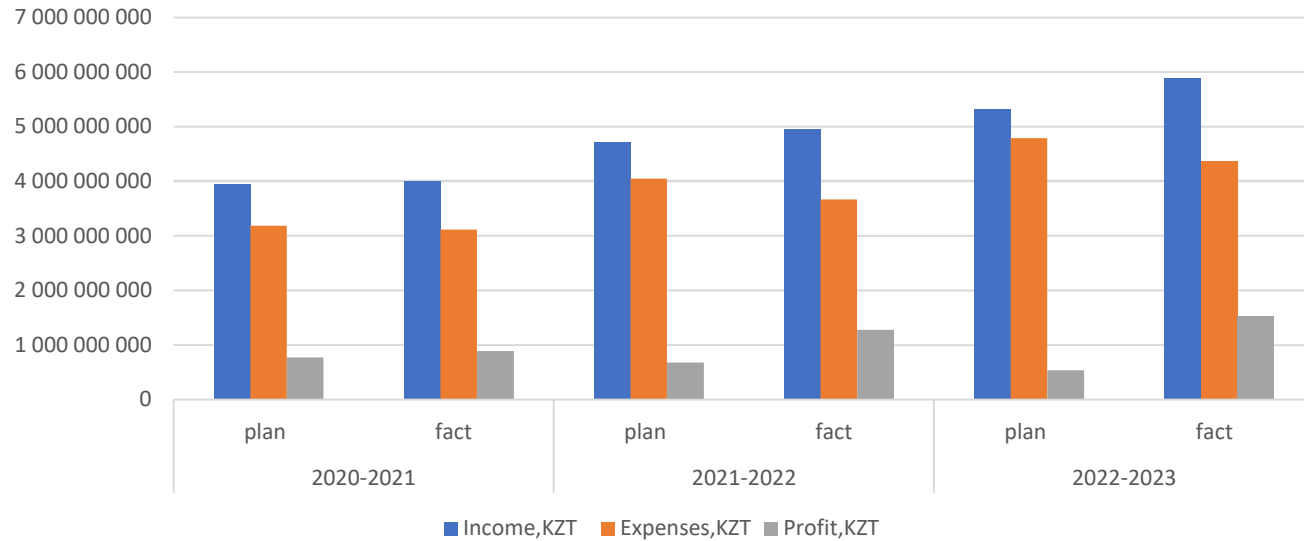

Objective for 2023-2024:
increase the number of students enrolled in “Journalism and Reporting”, “Management and Governance”, “Finance, Economics, Banking and Insurance”

Over the course of six months, the rating of personal account on the 2GIS platform was increased from 2 to 3 points.

Plan-fact analysis of the budget of IITU JSC

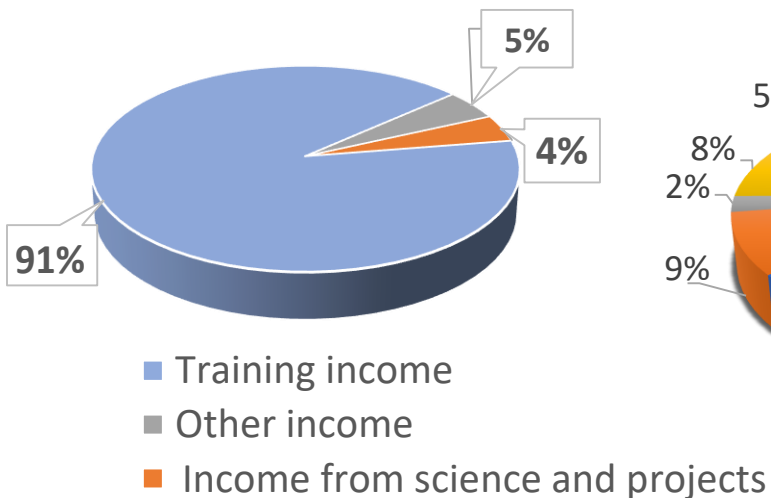

Problems:

- Unprofitability of EP master's and doctoral programs;
- Low profitability for additional services and funded projects;

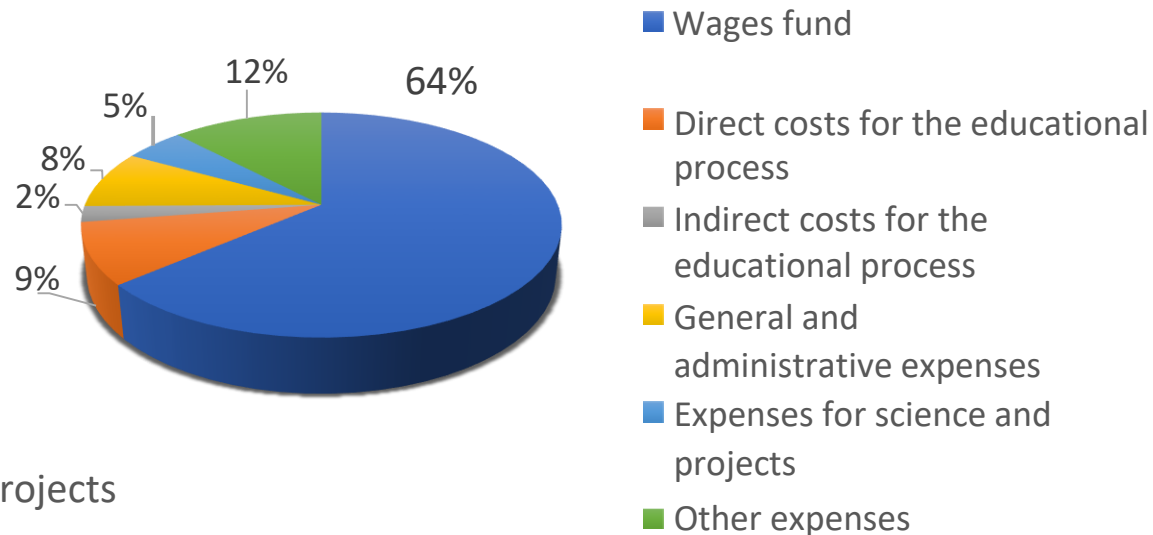

Objectives:

- Development of endowment fund;
- Increasing the number of additional services and their profitability;
- Increase in the number of research projects

Income of IITU JSC for the 2022-2023 academic year

Expenses of IITU JSC for the 2022-2023 academic year

EP profitability, %

EP name	BA	MA	PhD
Journalism	11,49		
Information Security	21,02		
Business and Administration	22,77	-142,39	
Information Technologies	25,05	-208,50	-0,98
Communications and Communication Technologies	21,02	-133,91	

In order to implement the Development Strategy of IITU JSC for 2022-2025:

- Successful completion of the International Institutional Reaccreditation procedure with confirmation of the quality of activities of IITU JSC;
- Analysis of the educational outcomes of university educational programs and the policy of assessing students' knowledge;
- Development and implementation of microqualification programs and ensuring collaboration with large companies;
- Development of online education, development of high-quality proprietary MOOCs, provision of additional educational services and attraction of external potential students;
- Search for potential partners and implementation of educational programs within the framework of double-degree education as the most important means of increasing the competitiveness of a university in the global market of educational services;
- Ensuring participation in the QS Stars program and other significant world and national ratings;
- Preparation of the material and technical base and attraction of scientific and pedagogical personnel to create a scientific school in the direction of "Artificial Intelligence";
- Development of scientific and professional competencies of faculty members for conducting high-quality scientific research and successful defense of PhD dissertations;
- Development of an eco-system of startup projects: creating conditions for commercialization of the results of innovative activities, attracting investments;
- Organizing meetings of students with eminent graduates and top managers of large employers in collaboration with the Alumni Association;
- Introduction of Integral GPA in order to increase students' activity in social, patriotic, cultural and sports events of the university and the city;
- Intensifying work to support socially vulnerable students and people with disabilities.
